

October 15, 2012 - Mayor to Have Surgery Today

Mayor Cedric Glover will undergo surgery this afternoon to repair the quadriceps tendons he ruptured during a fall Oct. 3 at a local elementary school.

The procedure is expected to last about three hours and no complications are anticipated. The Mayor suffered lacerations and abrasions during the fall and his doctors wanted those to heal before surgery.

“I certainly appreciate all the cards, emails and especially the prayers that folks have been sending my way,” Mayor Glover said. “I’m confident the surgery will go well and I’ll begin my rehabilitation as soon as possible so I can get back to something that resembles a normal schedule.”
