Community Development

Grant & Resource Directory

I am pleased to provide your organization a copy of the Louisiana State and Federal Grant & Resource Directory.

The Louisiana State and Federal Grant & Resource Directory is a good starting point for constituents and organizations interested in state assistance. It provides a general overview of each state grant and assistance program, including link information and contact information, for organization who provide grant assistance programs.

The directory is not a comprehensive listing but I am hopeful that it can be a useful starting place for your intended projects.

We will be expanding this director over the coming months, to include more detail on individual agencies, grant opportunity listing, and other relevant information to assist in your program and projects assistance needs.

If you have access to the internet, I would also recommend that you utilize the State and Federal web page for further information about grant and assistance program funding.

I hope this resource proves useful. If you have any questions or need assistance in securing information from any program, please feel free to contact my office.

As always, it is my pleasure to serve you on behalf of Mayor Cedric Glover, the City of Shreveport and Community Development Department.

Sincerely,

Bonnie Moore

"The Pelican State"

Louisiana

The nickname for Louisiana is *The Pelican State*. The brown pelican is the [state bird](#) and appears on Louisiana's [state flag](#), [great seal](#), the official [state painting](#) (along with many other symbols and icons of Louisiana), and is one of three Louisiana symbols displayed on the U.S. mint's bicentennial quarter

Grant & Resource Directory

General Guide to Funding Assistance Terms

The information listed below outlines the several common forms of funding. The list is far from exclusive and should be used as a general guide:

- **Appropriations:** State government appropriations are authorized by the General Assembly or an executive authorization by the governor.. Federal government appropriations are deposited into the state General Fund.

The federal government, appropriations are authorized by Congress.

Some federal appropriations are referred to as “earmarks,” and are usually large projects that are specifically placed in appropriations bills for a limited purpose.

Visit www.house.gov/crs-grants/show/1.html for more information.

- **Corporate Donations:** Corporate donors may set aside funds for public relations purposes. Community service from corporations can be in monetary donations, community service or equipment. Corporate entities strive to maintain a relationship with the community with outreach programs and donations under corporation/community foundations.

- **Grants:** Government grants are usually competitive in nature and are designated and administered by state and federal government entities. States, local governments and nonprofits that fill a compelling social need are eligible entities to receive government grants. Individuals are not usually eligible unless it is an educational grant or loan, or focuses on an academic research at an institution of higher education.

The Federal Government has two primary types of grants:

- **Categorical grants**
- **Block grants.**

Categorical grants are general distributed for specific purposes.

Block grants are distributed to states and local governments based on a distribution formula and are available for an activity that falls within the purpose of the federal authorizing legislation.

- **Individual benefits:** Individual benefits are often called “entitlements,”

- **Private Foundations:** Some communities are fortunate to have local foundations whose funds can be used for providing a specific need, start or maintain a service, help low-income areas, etcetera.

Some national corporate foundations contribute to specific community or social needs. Hundreds of foundations offer grant opportunities and these should not be overlooked.

- **Procurement:** Whether you are a small or large organization, there are many government procurement opportunities available to you.

www.usa.gov/Business/Business_Gateway.shtml or www.fbo.gov/. Additional assistance is available through the Procurement Technical Assistance Centers. To find the center closest to you, contact 1 (800) FED INFO or 1 (800) 333-4636.

Grant Basics

1. **Need and plan.** Determine your need and formulate a plan for implementation.
2. **Research and find opportunity.** Search or browse Web sites as well as private foundations and catalogs for potential grant opportunities that fit your need. This may require some creative thinking. Study the decision maker's stands/points of view. Gather facts and figures to support your need.
Often grant solicitations will describe what they do not want, but will not fully explain what they will accept.
3. **Locate the grant contact person.** Once you have identified potential funding sources, it is often recommended that you inquire with grant contact person to discuss the application process and how best to present your grant request in a way that maximizes the chances of award selection.
4. **There are eight basic components to creating a proposal:** 1) summary; 2) introduction of the organization; 3) problem/needs assessment; 4) project objective; 5) project method or design; 6) project evaluation; 7) future funding needs; and 8) project budget.
5. **Review grant applications.**
6. **Check regularly.** Check the Web sites weekly for new grant postings.
7. **Write proposal.** Learn how to write grant proposals, (see below for grant writing resources). Present decision makers' terms, best interests or focus. Keep records, follow-up as needed and thank everyone for their help.

City of Shreveport

Community Development Grant and Resource Information

Executive Summary

The primary objective for the use of Community Development Block Grant and other federal program funds governed by the Consolidated Plan is the development of a healthy and viable urban community, including decent and affordable housing, a suitable living environment, and expanding economic opportunities, principally for persons of lower and moderate income.

Consistent with this primary objective, the 2009 – 2013 Consolidated Plan and 2009 Annual Action Plan articulates the City of Shreveport's local development plan for the use of federal funds to enable community development objectives to be realized.

The Consolidated Plan is a strategic plan designed to address community needs in housing, economic development and public services.

The community's priority needs have been identified through a community participation process, an analysis of the local housing market and an assessment of housing and homeless needs in Shreveport.

Together these activities have provided a means of defining the current environment in which federal funding will be invested in the community. The analytical parts of the document are drawn from the 2006 American Community Survey, along with the 2000 U.S. Census and other information gathered locally.

Local data included a homeless survey conducted in Shreveport for the Continuum of Care, real estate and economic data provided by the Association of Realtors and Chambers of Commerce, tax and building permit data compiled by the City of Shreveport and the Parish.

The major sections of the Consolidated Plan include Consultation and Citizen Participation, Housing Market Analysis, Housing and Homeless Needs Assessment, Strategic Plan, and Annual Action Plan

City of Shreveport

Resources

The City continues to apply for resources in support of the implementation of its community development programs. In addition to our HOME, CDBG, and ESG funds, the City relies on other federal and state resources for leveraging. The following are other grants currently received or represent applications for funding currently under consideration.

HUD Neighborhood Stabilization Grant (NSP) - The City is currently submitting an application for funds that will support the purchase of foreclosed or abandoned homes at a discount and to rehabilitate, resell, or redevelop these homes in order to stabilize neighborhoods and stem the decline of house values of neighboring homes.

Louisiana Housing Trust Fund - the City of Shreveport has been awarded a \$1 million grant to provide affordable housing for low to moderate-income persons.

Low Income Housing Tax Credits - Private developers are encouraged to apply for state allocations of tax credit equity for affordable housing development and the proceeds from the syndication of tax credits will be used to leverage multifamily rental development projects.

Economic Development Initiative - In 2000, the City of Shreveport was awarded a \$2 million grant (the Economic Development Initiative) to provide economic opportunities for low to moderate-income persons. These funds will continue to be used to enhance economic development opportunities in the target areas until expended.

Lead Based Paint - the City has submitted an application for Lead Based Paint funding. Funds will be used to provide mitigation assistance to for housing impacted by lead based paint.

Youth Build - the City plans to submit an application for Youth Build funding. Funds will be used to provide on the job training and construction industry skills to at risk youth.

Workforce Investment Act (WIA) – Funds are used to provide workforce investment activities that increase the employment, retention, and earnings of participants and increase occupational skill attainment by participants, which will improve the quality of the workforce, reduce welfare dependency, and enhance the productivity and competitiveness of economically disadvantaged individuals.

HUD Grants

State Community Development Block Grant (CDBG)

– Provides grants to states to plan and administer community development activities and programs. Primary objective is the development of viable urban communities by providing decent housing and suitable living environments, and expanding economic opportunities, principally for persons of low and moderate income. Not less than 70 percent of grant funds received by each grantee must be used for activities that benefit persons of low and moderate income

HOME Program – Federally funded program provides local Governments with loan and technical assistance to expand the Supply of decent and affordable housing for low and very low income Pennsylvanians. A 25 percent local match on project cost from non-federal resources for existing housing is required. A 30 percent local match is required for new construction. Maximum grant is \$500,000. Local governments, which are not in HUD participating jurisdictions and local governments on behalf of private and non-profit and for-profit housing development corporations are eligible to apply

Emergency Shelter Grant (ESG) – Federal grants funding to assist in creating or rehabilitating shelter space for the homeless. Eligible are local governments; local governments on behalf of private, non-profit organizations. Used for creation or rehabilitation of shelter space for the homeless, the purchase of machinery, equipment, furniture and appliances for homeless shelters, the provision of new social services, or the development or upgrade of shelter space.

HUD Section 108 Loan Guarantee Program – Loan guarantee provision of the Community Development Block Grant program. Allows local governments to transform a small portion of their CDBG funds into federally guaranteed loans large enough to pursue physical and economic revitalization projects that can renew entire neighborhoods.

Workforce Investment Act of 1998 – A federal program that

provides job training to eligible individuals. Provides private and public sector employers up to 50 percent of wage rate for employees while in training and up to actual costs of classroom training, training-related and supportive services

HPRP – Homeless Prevention and Rapid Re-Housing

The main purpose of the grant is to provide homelessness prevention assistance to households who would otherwise be homeless due to the economic crisis. The program also seeks to rapidly re-house persons who are homeless and households who are most in need and likely to achieve stable housing after the program concludes.

HUD AWARDS \$150,000 IN GRANTS TO NEW ORLEANS, JEFFERSON PARISH AND SHREVEPORT HOUSING AUTHORITIES TO HELP PUBLIC HOUSING RESIDENTS OBTAIN JOBS, ECONOMIC INDEPENDENCE

The grants are provided through HUD's *Public Housing Family Self-Sufficiency Program*, which enables public housing authorities (PHA) to hire program coordinators who work directly with residents to connect them with local education and training opportunities; job placement organizations and local employers. The purpose of the program is to encourage local innovative strategies that link public housing assistance with public and private resources to enable participating families to increase earned income; reduce or eliminate the need for welfare assistance; and make progress toward achieving economic independence and housing self-sufficiency.

Sustainable Communities Regional Planning Grant Program

In the Consolidated Appropriations Act, 2010 (Public Law 111-117), Congress provided a total of \$150,000,000 to HUD for a Sustainable Communities Initiative to improve regional planning efforts that integrate housing and transportation decisions, and increase state, regional, and local capacity to incorporate livability, sustainability, and social equity values into land use plans and zoning. Of that total, \$100,000,000 is available for the Sustainable Communities Regional Planning Grant Program, of which approximately \$98,000,000 will be used for competitive grants to support preparation of Regional Plans for Sustainable Development, with 2,000,000 reserved for capacity support grants.

The Sustainable Communities Regional Planning Grant Program will support metropolitan and multi-jurisdictional planning efforts that integrate housing, land use, economic and workforce development, transportation, and infrastructure investments.

The Sustainable Communities Planning Grant Program is being initiated in close coordination with the U.S. Department of Transportation (DOT) and the U.S. Environmental Protection Agency (EPA), co-leaders with HUD in the Partnership for Sustainable Communities.

Applications must be submitted by August 23, 2010, at 11:59:59 p.m. EDT.

Faith Based Initiatives.

The program goals are:

- 1.) Promote the role of faith-based and community organizations in serving the needs of people
- 2.) Encourage faith-based organizations to apply for federal funding

Supportive Housing Program:

The goal of the program is to assist participants (homeless families) in achieving and sustaining self-sufficiency and residential stability through an integrated program that consists of:

- Transitional housing
- Case management
- Employment and training, and
- Targeted educational services

The Home Repair Programs

Provide grant assistance to low-income homeowners. Applications are accepted on a continuous basis and ranked accordingly, based on the seriousness of homes' conditions.

Youth Services

Goals are to:

- Build academic, work readiness and occupational skills
- Support the young person's development
- Address his or her needs and barriers to success

Other Resources

Other resources are expected to be made available to address the needs identified in this plan. Other State of Louisiana funding grants will also be sought. Private lenders will contribute significant leverage to the Homebuyer's Assistance Program Participation Initiative (HAPPI) Program, the City's Economic Development Initiative, and several multifamily projects slated for FY 2009.

Matching Requirements – for the ESG Program will be met with various resources ranging from in-kind donations and cash to volunteer labor.

Private Donations – The City is currently engaged in housing development efforts with several lending institutions. Private donations and in kind contributions are committed annually to the Paint Your Heart Out-Shreveport campaign.

Private Lenders – The City of Shreveport has partnerships with several lending institutions to provide permanent financing for first-time homebuyers whose incomes are at or below 80 percent of the area median income level.

Shreveport Home Mortgage Association (SHMA) - will provide homebuyer assistance for first-time homebuyers.

City-owned and Expropriated Property – The City will continue its emphasis on expropriating abandoned and adjudicated property and making property available to for profit and non profit developers for affordable housing development.

Louisiana Grants

▶ [Aaron Brooks Family Foundation - New Orleans](#)

The Aaron Brooks Family Foundation was established as a 501c (3) tax exempt organization in November 2003 to support literacy, the arts, and other youth inspired programs.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Albertsons Community Investment - ID, MT, NV, CA, OR, UT, WA, WY, AZ, CO, FL, LA, NM, TX](#)

Albertsons Community Investment gives grants to nonprofit and school programs that meet the following focus areas: Hunger Relief, Health, Nutrition & Healthy Lifestyles. Geographical focus areas: Idaho, Montana, Southern Nevada, Southern California, Oregon, Utah, Washington, Wyoming, Arizona, Colorado, Florida, **Louisiana**, New Mexico or Texas.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Baptist Community Ministries](#)

Baptist Community Ministries (BCM) is a private, grantmaking foundation committed to a healthier **Greater New Orleans** area. BCM funds grants primarily in four major areas of interest: education; health; public safety; and governmental oversight. Applications not falling in these four major areas of interest are not typically considered.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Baton Rouge Area Foundation](#)

Through grants to charitable organizations, our donors are contributing to the overall growth and development of our region. Service organizations around the area, for example, are making a difference in the daily lives of residents and fostering opportunity through programs that teach people to read and provide preventive healthcare and education. Programs like these are made possible by civic minded individuals who believe that personal prosperity is best celebrated with kindness and compassion for our neighbors.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Brookshire Grocery Co. - AR, MS, LA, TX](#)

Brookshire Grocery Co. contributes to many nonprofit, non-political organizations. Normally, 800-plus charities receive donations each year. The company's philanthropic efforts focus on feeding and otherwise caring for the needy, children's issues and law enforcement. Brookshire Grocery Co.'s Community Connections activities include assisting Habitat for Humanity, the East Texas Food Bank, United Way Day of Caring, Special Olympics, Susan G. Komen Race for the Cure, Coats for Kids, Relay for Life, Muscular Dystrophy Association telethons and other fundraisers, local homeless shelters, animal shelters and many more.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Central Louisiana Community Foundation](#)

The foundation is organized to serve philanthropic goals of the citizens from **Twelve Central Louisiana Parishes**: Allen, Avoyelles, Catahoula, Concordia, Evangeline, Grant, LaSalle, Natchitoches, Rapides, Sabine, Vernon, Winn.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Charles T. Beard Foundation](#)

The Charles T. Beard Foundation is committed to improving the **Shreveport, Louisiana** area through assisting organizations to add opportunity, freedom of action and choice, self-betterment and a climate for change to the lives of the people they serve.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Community Foundation of Shreveport-Bossier](#)

Twice a year the Foundation awards competitive grants to non-profit organizations for programs that benefit Caddo and Bossier Parishes. The Foundation seeks to fund programs and projects that efficiently and effectively address our community's most pressing needs and/or seize opportunities to make positive change in our community. Generally, grants are awarded in the following program areas: Arts & Culture, Civic, Education, Environment, Health/Science, Human Services, Organizational Development / Capacity Building, Religion.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Community Foundation of Southwest Louisiana](#)

The Community Foundation of **Southwest Louisiana** serves Calcasieu, Beauregard, Allen, Cameron and Jefferson Davis parishes. We provide financial support for charitable, social, educational and human services programs.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Ella West Freeman Foundation](#)

The Foundation supports grant seekers from the southeast Louisiana area. Within this area, highest priority is given to grants in the following categories. Education with an emphasis on private education, Arts, both performing and applied Community improvement and governmental oversight, Human service organizations with an emphasis on capital projects for established agencies.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Family Foundation of Southwest Louisiana](#)

The Family Foundation of **Southwest Louisiana** serves as the endowment and philanthropic arm of Family & Youth, connecting donors to the priorities that enhance the quality of family and community life for generations to come. The Foundation supports Human Services Response Institute (HSRI). HSRI will help affected individuals and families gain access to shelter, adequate food, basic needs, and crisis support services. The Family Foundation of Southwest Louisiana serves Allen, Beauregard, Calcasieu, Cameron and Jeff Davis parishes.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Fertel Foundation - New Orleans](#)

Energized by a passion for weaving ideas and people together, the Fertel Foundation supports projects related to the arts and education. It has a special interest in initiatives from which new communities and new insights may emerge and those that challenge entrenched communities of power. The **New Orleans**-based foundation, established in 1999, also helps rebuild a better New Orleans – and create national models – in a post-Katrina world.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Fluor Foundation - AK, CA, LA, NY, SC, NC, PA, TN, TX, VA, WA, Wash DC](#)

The Fluor Foundation has a long history of investing in communities, nonprofit organizations, and education. Since its inception in 1952, the foundation, along with Fluor Corporation, has contributed more than \$145 million to projects around the world. Areas of funding interest include Education, Human Services, Culture, Public/Civic Affairs. Geographical focus areas: AK, CA, **LA**, NY, SC, NC, PA, TN, TX, VA, WA, Wash DC.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Foundation for the Mid South](#)

The Foundation for the Mid South is a regional development foundation that brings people together, strengthens communities, and multiplies resources. By working with people with a wide range of resources, skills, and talents, the Foundation for the Mid South strives to nurture families and children, improve schools, and build the economy for all people in Arkansas, **Louisiana**, and Mississippi.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Fred B. and Ruth B. Zigler Foundation](#)

The Fred B. and Ruth B. Zigler Foundation provides grants and scholarships for students in Jefferson Davis Parish. Founded in 1956 by Ruth B. and Fred B. Zigler, the Zigler Foundation is a non profit organization and serves the community of **Southwestern Louisiana**.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Freeport-McMoRan Foundation](#)

By collaborating with communities and organizations, we help provide sustainable benefits in the areas where we operate. Areas of funding interest include Communities, Economic Development, Education & Training, Health, Cultural Preservation, Human Rights, Security.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Frost Foundation](#)

The Frost Foundation was created on March 19, 1959 to be operated exclusively for educational, charitable and religious purposes. The Foundation encourages creativity which recognizes emerging needs, and to assist innovation which addresses current urgent problems. The Foundation is prepared to review applications of human service needs, environmental and education programs in New Mexico and

Louisiana from organizations which have an IRS 501(c)(3) determination.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

[Gheens Foundation - LaFourche and Terrebonne Parishes in Louisiana](#)

Generally, recipients are to be made for worthy causes of all kinds, grants for education and Christian works, both cultural and spiritual, will receive emphasis. From time to time, special effort will be made to determine the communities' needs, and if possible, grants will be directed toward fulfilling those needs.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

[Greater New Orleans Foundation](#)

The **Greater New Orleans** Foundation focuses on five major areas—Housing, the Environment, Regionalism, Community IMPACT, and Special Initiatives—the Foundation has embraced the role of convener, bringing local and national expertise and funding to a common table. Beyond grantmaking, we research the pressing needs of New Orleans, evaluate solutions, and provide coordinated responses.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

[Harrah's Foundation - AZ, CA, IL, IN, IO, LA, MS, MO, NC, NJ, NV, PA, TN](#)

The Harrah's Foundation focuses its philanthropic efforts on three categories: Seniors – community-based programs that enhance the lives of seniors are our primary philanthropic initiative. Education – community-based programs that enhance educational opportunities and resources for students seeking higher education. Civic – broadly defined as local programs that are vital to the success of each of our communities. These include community-based and faith-based organizations dealing with children and families, adults, the environment, health care, the arts, etc. Requests must be submitted through Harrah's Entertainment properties – the corporate office will not accept any requests for funding. You may mail your proposal directly to the property located nearest to your community.

Geographic funding focus: AZ, CA, IL, IN, IO, **LA**, MS, MO, NC, NJ, NV, PA, TN.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Huey and Angelina Wilson Foundation](#)

The Huey and Angelina Wilson Foundation exists for the enhancement of the lives of the people of **Louisiana** and in particular of the **Greater Baton Rouge region** by supporting philanthropic initiatives and programs that improve the lives of its citizens in the areas of Human Services, Health Care, Education and Prison Release and which positively impact and strengthen those organizations and institutions that address the underlying causes of problems rather than treating symptoms.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Irene W. & C. B. Pennington Foundation](#)

Most of the foundation's giving focuses on organizations and agencies within or near **Baton Rouge, Louisiana**. This includes East Baton Rouge, East Feliciana, Livingston, Pointe Coupee, and West Feliciana Parishes. Some support is given in Tangipahoa Parish and the Florida panhandle. Areas of Interest - Human services and education are the two areas of most interest to the foundation. Support is also given in the areas of medical/health, arts and humanities, and community development. In some cases, projects may be funded in the areas of the environment and religion.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Joe W. and Dorothy Dorsett Brown Foundation](#)

The Joe W. and Dorothy Dorsett Brown Foundation was established in 1959 and is involved in funding medical research; housing for the homeless; organizations who care for the sick, hungry or helpless; religious and educational institutions; and organizations and groups concerned with improving our local community. Efforts are restricted to the states of **Louisiana** and Mississippi with a focus on **South Louisiana**, the **New Orleans** area and the Mississippi Gulf Coast.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Keller Family Foundation - New Orleans](#)

The Keller Family Foundation awards grants to qualified 501(c)(3) non-profit agencies, primarily in the **Greater New Orleans region**. With each change in membership of the Board of Trustees, the Foundation's direction and priorities change to reflect the input and priorities of the new members. The current Board has keen interests in education, youth development, human services, and public affairs. The Foundation's primary region of interest is New Orleans, Louisiana and its surrounding communities.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Louisiana Challenge Grant](#)

To help ensure that all students in **Louisiana** become "technology literate," the Governor's Louisiana Education Achievement and Results Now (LEARN) Commission and the Board of Elementary and Secondary Education (BESE) have unanimously approved, in concept, the Louisiana State Plan for Educational Technology. The Governor's Education Advisor and the State Superintendent of Education have expressed strong support for the plan. Funding to support the development of the plan has been derived from a variety of sources: National Science Foundation (NSF), BESE, Goals 2000/LEARN, and the U.S. Department of Education.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Louisiana Disaster Recovery Foundation](#)

The Louisiana Disaster Recovery Foundation stands firm in its conviction that groups historically disenfranchised by racial discrimination and economic hardship must have access to sufficient resources and opportunities; thus, the Foundation insists that equity and inclusion be not just one goal among others, but the lens through which we see each and every undertaking for post-hurricane betterment. Providing greater access to the opportunities and services that many take for granted – jobs, safe housing, education, medical care – builds stronger communities for all citizens.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Rapides Foundation](#)

All of our work at The Rapides Foundation revolves around our overall Mission of improving the health status of **Central Louisiana**. Our three priority areas, and objectives in each area, are as follows: Healthy People, Education, Healthy Communities. Geographical area: Projects must directly benefit residents or organizations within the nine parish areas. The Foundation service area: Allen, Avoyelles, Catahoula, Grant, LaSalle, Natchitoches, Rapides, Vernon and Winn.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [RosaMary Foundation](#)

The Foundation supports grant seekers within the **Greater New Orleans area**. Highest priority is given to grants in the following categories: Education, with emphasis on private institutions, Human

service organizations, Arts, both performing and applied, Community development activities, Governmental oversight activities.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Stuller Family Foundation](#)

Within six parishes --- Lafayette, Iberia, St. Martin, St. Landry, Vermilion and Acadia -- The Stuller Family Foundation partners with a number of 501(c)(3) nonprofit organizations in a variety of interests including humanitarian, youth, religious and education.

Category: [Regional Grants & Resource Sites](#) >> [Louisiana Grants](#)

▶ [Wachovia Foundation](#)

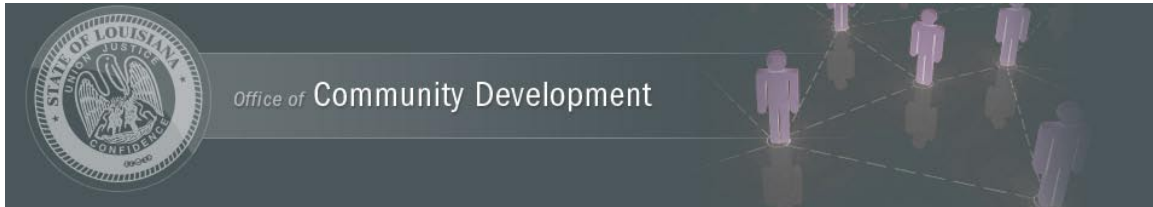

The Wachovia Foundation is a private foundation that is funded annually by Wachovia Corporation. We provide grants to eligible 501(c)(3) tax-exempt organizations in two primary and two secondary focus areas. Primary Focus Areas: Education, Community Development. Secondary Focus Areas: Health and Human Services, Arts and Culture. Geographical areas: Alabama, Connecticut, Delaware, Florida, Georgia, **Louisiana**, Maryland, Mississippi, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, Washington, DC.

Categories of Federal Grants

Federal Grants by Category

This section allows you to browse grants by their category of funding activity. Select the category which best describes the type of grant opportunity you are looking for.

Agriculture Grants	Arts Grants
Business and Commerce Grants	Community Development Grants
Consumer Protection Grants	Disaster Prevention and Relief Grants
Education Grants	Employment, Labor and Training Grants
Energy Grants	Environment Grants
Food and Nutrition Grants	Health Grants
Housing Grants	Humanities Grants
Income Security and Social Services Grants	Information and Statistics Grants
Law, Justice and Legal Services Grants	Natural Resources Grants
Regional Development Grants	Science and Technology Grants
Stimulus Grants	Transportation Grants
Other Federal Grants	

We will expand the tools of this Resource
 With more detailed information over the coming months

With information on areas such as:

Federal Grant Sources

- **Grants.gov** – www.Grants.gov

A federal grants Web site that allows organizations to electronically find and apply for current competitive grant opportunities from all federal agencies.

Grant seekers can check on notices of funding availability posted in the last seven days, sign-up to receive e-mail notification of future grant opportunities and apply for federal grants online through a unified process. Federal program descriptions are incorporated in the CFDA, (see below).

Catalog of Federal Domestic Assistance – www.cfda.gov

The Catalog of Federal Domestic Assistance (CFDA) is issued annually and updated continuously on the Web. It describes about 1,600 federal grants and non-financial assistance programs. Grant seekers can identify programs that might support their projects and can learn the program's objectives, requirements, application procedures and contacts.

For current notices of funding availability, see Grants.gov. A hard copy of the catalog can be obtained through the Government Printing Office (www.bookstore.gpo.gov); phone: 1 (866) 512-1800, or by visiting a Federal Depository Library).

• **Federal Funds Express** – www.house.gov/ffr/resources_all.shtml

This Web site lists recommended sources of information for researching grants, procurement, and other resources on the Internet.

• **USA.gov Government-to-Government** – www.usa.gov/Government/State_Local.shtml

Thousands of grants and loans are awarded by the federal government to state and local governments, as well as other public entities.

This site provides a one-stop access to grants management and federal assistance programs, in addition to resources about acquisition and procurement, financial management and taxes.

• **USA.gov for Nonprofits and Businesses** – www.usa.gov/Business/Business_Gateway.shtml

The site has links to federal departments, agency information and services for nonprofit organizations about fundraising and outreach, grants, loans and other assistance.

Pertinent laws and regulations, management and operations, online services, registration and licensing, and tax information are available.

Free Federal Grants

The truth about free federal grants is: There are no free federal grants! At least not the type being advertised on late night infomercials and numerous websites.

Except for free college grants such as the Pell Grant, the U.S. government doesn't give away free grant money to individuals. So don't worry, you're not missing out on anything.

Some of these outrageous claims state the average person is somehow missing out on thousands of dollars of free grant money they can get from the federal government. Some of these false claims say there is grant money available to help a person buy a home or pay off bills. If this were true everyone would be rushing to the line with their application. These claims are simply not accurate.

The federal government never charges a fee for applying for a federal grant. But **federal grants are not awarded to individuals or small businesses, except for select high technology companies who may qualify for specialized innovation research grants.** These are rare and hard to qualify for at the very least.

Federal grants are designed to be given to nonprofit agencies that can do the work of the government in our communities and neighborhoods - feeding the hungry, caring for children, improving literacy rates, providing healthcare to the poor. This is what federal grants are for.

Many of those misleading infomercials and websites prey on individuals who are in dire financial straits and falsely convince them federal grants can save them from economic doom. Of course these advertisers are looking to profit from their false claims - they are usually selling a binder of useless information, a video or DVD, or an e-book.

There is absolutely no reason to spend your hard-earned money on anyone or anything claiming the average person can get a "free" federal grant. You simply can't.

**This is where Individuals and individual organization,
Turn to the Resources of organizing like
"Community Development" and other like
organizations.**

**Who partners with non profits and for profit
organization and individuals businesses to engage the
work Federal Grants are designed to meet.**

Federal Housing Grants

The **U.S. Department of Housing and Urban Development (HUD)** is the federal government's arm which makes available almost \$1 billion in grants. All HUD grant announcements are posted on HUD's website at hud.gov. You can also view HUD grants in our agency listing for [Housing and Urban Development Federal Grants](#) here at FederalGrants.com.

HUD is the Federal agency which works to help the nation's communities meet their development needs, spur economic growth in distressed neighborhoods, provide housing assistance for the poor, help rehabilitate and develop moderate and low-cost housing, and enforce the nation's fair housing laws.

While HUD does not offer direct grants or loans to individuals, they do work through local governments and non-profit organizations to make financial assistance and counseling available to eligible individuals. Further information about specific HUD programs is available for you to access on the HUD website.

Grant applicants must usually be nonprofit organizations or community development organizations.

The HUD program affecting many Americans is the **Community Development Block Grant Program (CDBG)**, initiated by President Gerald Ford in 1974. CDBG projects are those which benefit low and moderate income peoples, the prevention or elimination of slums or blight, or other community development activities to address an urgent threat to health or safety. CDBG funds may be used for community development activities (such as real estate acquisition, relocation, demolition, rehabilitation of housing and commercial buildings), construction of public facilities and improvements (such as water, sewer, and other utilities, street paving, and sidewalks), construction, upgrading and maintenance of neighborhood centers, the conversion of school buildings, public services, and economic development and job creation/retention activities. CDBG funds can also be used for preservation and restoration of historic properties in low-income neighborhoods.

The block grants of the **HOME Investment Partnerships Program (HOME)** allocate federal funds by formula to state and local governments to create affordable housing for low-income households. Participating jurisdictions have considerable flexibility with regard to

how they use the HOME federal funds. The U.S. Department of Housing and Urban Development establishes lines of credit for state and local governments, which draw upon them to finance grants, direct loans, loan guarantees and other forms of credit enhancement, rental assistance, and security deposits for eligible residents in their area.

Below is a sample listing of available housing grants that were recently posted on the HUD website:

1. Assisted Living Conversion Program for Eligible Multifamily Projects. The purpose of this program is to provide grants for the conversion of some or all of the dwelling units in an eligible project into assisted living facilities (ALFs) for frail elderly persons.

2. Community Development Block Grant Program for Indian Tribes and Alaska Native Villages

3. Community Development Technical Assistance Programs

4. Fair Housing Initiatives Program

5. Healthy Homes and Lead Hazard Control Programs

6. Housing Choice Voucher Family Self-Sufficiency Program Coordinators

7. Housing Counseling Programs

8. Housing Opportunities for Persons with AIDS

9. Public Housing Family Self-Sufficiency

10. Resident Opportunity and and Self-Sufficiency Programs

11. Supportive Housing for the Elderly

12. Supportive Housing for Persons with Disabilities

Grants for Minorities

Federal grants are considered financial assistance provided by a government agency to execute a public intention of aid or incentive that is authorized by a United States law. These grants are not classified as benefits, entitlements, federal loans, or loans to certain recipients. Federal grants are monetary awards that will be utilized as financial assistance intended to execute work for charitable purposes or those that will benefit the public. The grantee must adhere to certain requirements and fulfill the grant's obligations to the last detail.

The goal of United States government grants is to benefit the community and the society as a whole. In fact, there are grants given to minority populations in various fields, professions, businesses, and research groups. Grants for minorities are meant to make a difference in the living conditions of the recipients by providing them access to higher education and professional advancement. Once you meet eligibility requirements, you can have access to various minority grants. Who then qualifies for a minority grant? For the most part, U.S. citizens who identify themselves as African-American, Hispanic, Asian, or Native American can receive grants for minorities.

Minority Business Grants

Are you looking for small business grants for minorities? Members of a minority looking to start their own small business should look locally when searching for grant money. Examples of regional organizations offering small business grants for minorities include: Brotherhood Business Development & Capital Fund, Operation HOPE, FAME Renaissance, and Pacific Coast Regional. Also, your local Chamber of Commerce may know of funding opportunities in your area for minority businesses. Is your minority business already up and running? The National Minority Supply and Diversity Council can be a good first contact. Although not a grant issuer, they connect their larger member companies with minority businesses. These corporations are wanting to purchase goods and services directly from minority-owned small businesses.

Black Scholarships and Grants

In providing college grants to African-Americans, the following programs have benefited many students of Historically Black Colleges and Universities with grants: The United Negro College Fund, Frederick Douglass Scholars Program, Mordecai Wyatt Johnson Program, and

The National Black Nurses Association, and American Psychological Association's Minority Fellowship Program to name a few.

Hispanic Grants

Hispanic minority grants are generally fewer in number when compared to other minority grants. However, the government does in fact provide funding for Hispanic colleges and universities. Some of the programs covering these grants are Hispanic Nurses Association grants and scholarships, March of Dimes Nursing Scholarship program, Jose Marti College Grant, and Silicon Valley Scholarship.

Asian-American Grants

The Asian minority is said to be the fastest growing minority group in the United States. The Association for Asian Studies, Asian American Journalists Association, Asian American Federation of New York, and Southeast Asian Studies Regional Exchange Program are examples of organizations that provide Asian minority grants. Furthermore, The Luisa Mallari Fellowship is known to be the largest Asian minority grant program which allows the students to learn about their home countries.

Grants for Native Americans

Native Americans also have their set of college grants. Prior to an approval of a grant, one must first present a proof of Certificate Indian Blood (CIB) and that he or she actually belongs to a recognized tribe. Once such proof is certified as true then one can have access to the following grants: US Fish & Wildlife Service: 2008 Tribal Wildlife Grants, Tribal Colleges Education Equity Grants, Indian Adult Education, Minority Science and Engineering Improvement, and Special diabetes program for Indians: Diabetes Prevention & Treatment Projects.

Grants for Disabled People

People with disabilities, whether physical or mental, are likewise privileged of grants that would assist them in educational endeavor, may it be for preschool, college, or career training. Here are the list of the known group grants: Special Education Preschool Grants, Harry Truman Scholarship Program, Rehabilitation Training: Continuing Education, Tech-Prep Education, and Training Interpreters for Individuals who are Deaf & Individuals who are Deaf-Blind.

Grants for Low Income Students

Although not designed specifically for minorities, there are several popular grants that a prospective minority college student needs to know about. These grants are targeted toward helping mainly low income households. The [Pell Grant](#) is the most important, because if you qualify for a Pell Grant you can then apply for the National SMART Grant, the Federal Supplemental Educational Opportunity Grant, and the Academic Competitiveness Grant.

Small Business Grants

It's important to know that the U.S. Federal Government, as a rule, does not award small business grants to private for-profit businesses. Unless you are a 501C3 non-profit agency that is organized for charitable purposes and tax exempt under the IRS tax code, your small business is not eligible for federal grants.

That's the bad news. The good news is there are federal resources available for qualified small businesses to apply for.

The U.S. Small Business Administration (SBA) is the federal agency created in 1953 to help Americans start, build and grow businesses. The SBA serves people in the United States, American Samoa, Puerto Rico, the U.S. Virgin Islands and Guam. Although the SBA does not award grants to start or expand small businesses, they do have a wide range of loan programs available. You can access the Small Business Administration website at sba.gov. Also, you can find SBA grants in our agency listing for [Small Business Administration Federal Grants](#) here at FederalGrants.com.

The SBA does have an exception to the "no federal grants" rule for small businesses, but it is targeted to innovation research and high technology companies. The Small Business Innovation Research Program is a highly competitive program that funds the startup and commercial development stages of an innovative technology, product or service. The Small Business Technology Transfer Program is another competitive program that awards small business grants to businesses which partner with nonprofit research institutions for the commercialization of technology products.

Below is just a portion of the SBA programs that may be able to help American small businesses. You can research all available assistance at the SBA website. The Small Business Administration is primarily a guarantor of loans, meaning that the federal government does not loan money directly to small businesses; they guarantee the loans made by lending institutions to qualified small businesses, making it easier for small businesses to qualify for loans they might not otherwise be eligible for.

1. **Basic 7(a) Loan Program:** Loan proceeds can be used for working capital, machinery and equipment, furniture and fixtures, land and building (including purchase, renovation and new construction), leasehold improvements, and debt refinancing under special conditions. Loan maturity is usually up to 10 years for working capital and 25 years for fixed assets. This loan targets start-up and existing small businesses.
2. **504 Loan Program:** Provides long-term fixed-rate financing to small businesses to acquire real estate, machinery or equipment for expansion or modernization. These loans are usually delivered through a Certified Development Company (CDC) with liens placed on the collateral and a contribution of 10% equity from the borrower.
3. **Microloan 7(m) Loan Program:** These loans target small businesses and nonprofit childcare centers needing small-scale financing and technical assistance for startup or expansion. Provides short-term loans up to \$35,000 for working capital, inventory, supplies, furniture, fixtures, machinery or equipment. Proceeds cannot be used to buy real estate or to pay off existing debt. The loans are not guaranteed by the SBA. The SBA makes or guarantees a loan to an intermediary who then turns around and lends the money to a qualified small business. Intermediaries are nonprofit agencies who have experience in lending and technical assistance. The Microloan Program is available in selected locations in most states.
4. **Loan Prequalification:** Allows business applicants to have their loan applications of \$250,000 or less analyzed and potentially sanctioned by the SBA before they are taken to lenders for consideration.

Grants for Women

There are thousands of federal grants that will benefit women. However, you will be disappointed if you think the U.S. government will give a woman a direct grant just because she is a woman. It doesn't work that way. The U.S. federal government has over 900 federal grant programs. Some of these grants are designed to help women with specific needs or living in specific geographic locations. If your nonprofit agency's mission is to help women, then the first resource you should check out is our [FederalGrants.com Federal Grant Search](#).

As you will see from the sample list below, the U.S. federal government offers a wide range of diverse grant opportunities which address issues for women not only in America, but around the world. In order to qualify for a federal grant such as these, nonprofit organizations should be stable and mature entities who have been in the business of helping women for at least 3-5 years and have a good record of developing community partnerships with other helping organizations. The agency should have case histories of women who have been helped by their program, have kept track of the numbers of women served during the previous years, and be stable financially before applying for a federal grant.

A recent review of grant opportunities listed at **FederalGrants.com** revealed the following sample grants for women:

1. **The Office of Public Health and Science:** Minimum \$300,000 grant for new pilot programs which will develop cross-generational HIV/AIDS education approaches to women at risk or living with HIV/AIDS and other members of her family. Up to four awards available.
2. **The U.S. Agency for International Development:** \$300,000-\$500,000 grant to implement activities in support of creative and timely responses which will encourage the abandonment of traditional practices that promote and condone gender-based violence. Geographic focus is Africa, Asia and the Near East.
3. **The Employment and Training Administration:** Maximum \$300,000 grant to community-based organizations to assist them in conducting innovative projects to improve the

- recruitment, selection, training, employment, and retention of women in apprenticeships in the construction industry. three awards available.
4. **Bureau of East Asian and Pacific Affairs:** Grants up to \$150,000 to address women's economic empowerment, to foster political participation, and/or contribute to women/girls' freedom from violence. Minimum 3 awards available.
 5. **Small Business Administration:** Maximum \$150,000 funding to start new, community-based women's business centers. WBCs provide long-term business skills training, counseling and mentoring to benefit nascent and existing small businesses that are owned and controlled by women, especially those who are socially or economically disadvantaged. Up to 80 awards available.
 6. **Administration on Aging:** One award of \$240,000 available for a comprehensive program addressing retirement planning assistance for women.
 7. **National Institutes of Health:** \$200,000 for exploratory/developmental (R21) research grant applications on women's mental health and sex/gender differences in mental health across the lifespan.
 8. **Office of Public Health and Science:** \$100,000 for HIV Prevention Programs for Women living in Puerto Rico and the U.S. Virgin Islands. Up to 4 awards available.

Federal Pell Grants

Federal Pell Grants are direct money awards which are given to college students through participating educational institutions. In order to qualify for Pell Grants, students must demonstrate financial need and must not have received their first bachelor's degree. Students who are enrolled in certain post baccalaureate programs leading to teacher certification or licensure may also qualify for Pell Grants.

The purpose of the Federal Pell Grant program is to promote access to postsecondary education for low-income citizens. Before applying for Federal Pell Grant funds, a student should verify the school they want to attend is a participant in the Pell Grant program. Students may not receive Pell Grants from more than one school at a time.

The amount of a Pell Grant awarded to an individual student is dependent on the student's financial need and is determined by a formula used by the U.S. Department of Education, the student's expected family contribution, cost of attendance at the school, whether the student is full-time or part-time, and whether the student attends for the entire academic year or less than a year.

After a student files a FAFSA (Free Application for Federal Student Aid), the student will receive a SAR (Student Aid Report) or the school will receive an ISIR (Institutional Student Information Record). The ISIR will notify the student if he/she is eligible for a Pell Grant and will state the student's estimated family contribution toward his education, and the amount of the Pell Grant, if any.

Depending on what educational institution the student attends, Pell Grant funds awarded may be credited to the student's school account, paid directly by check to the student, or paid out in a combination of these methods.

To find out more about Federal Pell Grants visit the official program website at ed.gov. Feel free to browse other available educational grants in our [U.S. Department of Education Federal Grants](#) listing here at FederalGrants.com.

We will expand the tools of this Resource
With more detailed information over the coming months

With information on areas such as:

Grantee Resources

To help our grantees have a shared responsibility to run effective programs that fulfill the Grant mission. The resources provided here can help you explore useful tools to keep your organization properly informed about grant activities, and undertake projects more effectively.

Budget information provides information about financial reporting, including submitting and revising reports.

Annual narrative reporting provides information necessary for submitting, presenting and extending, the annual report, as well as what to do when changes occur.

Final narrative reporting provides information necessary to submitting, presenting and extending, the final narrative report, as well as what to do when changes occur.

National program reporting provides information about the use of subcontractors and summative reports.

Expenditure responsibility provides information on IRS reporting code requirements.

Project changes provide information on what to do if you need to make changes to your project or to grant staff.

The Connect project helps grantees build or enhance relationships with their members of Congress and other policymakers.

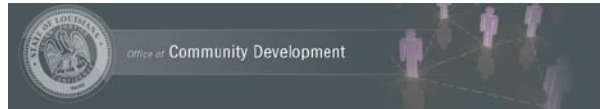

Communications information provides information about press releases, logo usage, publication credits and featuring projects on your Web site.

Legal information provides information about lobbying, advocacy and changes in tax status.

Travel provides information about guidelines and best practices recommended for travel as well as allowable expenses.

Nonfinancial and other information provides information about training, resources for technical tools, planning a great meeting, what other grantees are doing in similar areas, research guidance and a financial glossary.
