Vacant Building Damaged by Fire

The Shreveport Fire Department was dispatched at 9:07 PM tonight for a reported building on fire at 5403 Hearne Avenue. Fire Crews from Fire Station #8 arrived first on scene at 9:10 PM to find a vacant business with fire and smoke coming from the rear of the building. They made a quick entry and extinguished the fire inside the room of origin keeping it from extending and causing more fire damage. The fire was placed under control at 9:20 PM.

The business is vacant and did not have utilities connected to it. There were no injuries reported from the fire. A citizen on scene reported to the Shreveport Police Department that they saw some people running away from the back of the building. That information was passed on to the Shreveport Fire Investigator and the cause of the fire remains under investigation at this time.
