PRESS RELEASE

May 10, 2018

City to Hold Meeting on Bike Paths Monday

The City will hold a community meeting next week to further discuss the locations of additional bike paths for Phase II of this project. The meeting will be held at **5:30 p.m. on Monday, May 14, at Central Art Station, 801 Crockett Street.**

A new initiative in 2017 led to the creation of pilot bike paths in the Highland Neighborhood. The 2030 Great Expectations Master Plan identified a need for bike paths in the city. The streets selected for the pilot plan were already identified for asphalt overlay improvements. They also had adequate space for bike paths and required minimal effort at no additional cost.
