

City of Shreveport

No

Dispose of trash properly. Don't litter. Styrofoam, plastics (such as plastic rings from six-pack beverages) and other debris can injure and kill fish and wildlife.

Yes

No

Don't dump used motor oil or household hazardous wastes down storm drains. These drains flow directly to your local receiving water body without treatment. Take them to a recycling center or hazardous waste collection day.

Yes

No

Paving increases impervious surface area preventing rainfall absorption and causing increased runoff. Encourage implementation of and compliance with landscaping ordinances for development in Shreveport.

Yes

No

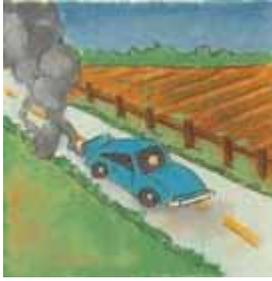

Sediment from eroding stream banks and bare soils enters water bodies causing harm to all forms of aquatic life. Help prevent erosion by planting steep slopes and resodding bare spots.

Yes

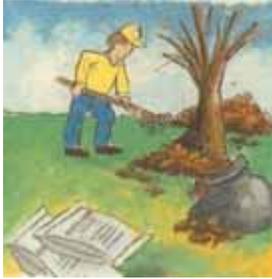

No

Yes

No

Service your car regularly so that it doesn't leak oil or contribute heavily to air pollution.

Yes

Use fertilizers and pesticides only when other methods have failed. Follow the instructions on the label for use and storage. Compost your leaves, grass, and shrub clippings - use as mulch for fertilization.
