Residents Should Only Use Green Bins During Recycling Suspension

While the City of Shreveport is working to secure a new recycler, the Public Works Solid Waste Department will collect the recyclable materials as trash. Residents are asked to place all waste in the green trash bins until a new contract is in place. This will help Solid Waste be more efficient in collecting the trash.

The temporarily suspension of curbside recycling began October 10, 2020. Customers with questions regarding recycling should call (318) 673-5510.
