Mayor's Summer Internship Program Culminates Friday

Mayor Adrian Perkins' Future Leaders of Shreveport Summer Internship Program will wrap up Friday with a simulated society game at Municipal Auditorium.

Goodwill Industries will facilitate the Life Happens "Reality Town" which will give the interns an opportunity to experience a brief scenario of balancing career, salary, and family at various income levels. Several community and corporate partners are working with the City of Shreveport to create this simulation for the interns.

Leadership skills training; simulated impairment with goggles from Safety Town; a tour of the Municipal Auditorium; and vaccinations offered by LSU Health will also be provided at the event.

Media interested in covering this event should meet Communications Director Marquel Sennet at the auditorium at 10 a.m.
