FOR IMMEDIATE RELEASE

October 6, 2021

SeeClickFix app ready for use in #CleanerShreveport Campaign

The SeeClickFix app is designed to allow Shreveport residents to request assistance with City services or report non-emergency issues like - blight, illegal dumping, graffiti, special pick-up of bulk items or code violations.

Submitted issues will be forwarded to the appropriate City departments to handle the requests. App users can receive email updates and have the option of returning to the app to track the status of their problems. Additional concerns should be submitted as new SeeClickFix reports.

The SeeClickFix app can be downloaded from the Google Play or Apple App Store on mobile devices. To use the service online go to www.shreveportla.gov and click report a concern. Users should make sure the address that is provided is the location of the issue that is being reported.

#CleanerShreveport is targeting opportunities to enrich and improve our city. The public awareness campaign will span across every department from Public Works and Property Standards to Information Technology and Economic Development.
