FOR IMMEDIATE RELEASE

May 20, 2022

Water pressure restored following plant repairs

Due to repairs at the T.L. Amiss Water Treatment Plant, customers may have experienced lower than normal water pressure on Friday. The work has been completed and water pressure should be restored to most parts of Shreveport.

There was no boil water advisory issued. If you are still experiencing low water pressure, call (318) 673-7600.
