FOR IMMEDIATE RELEASE:

10/7/2022

Speed enforcement cameras prove successful

We would like to advise that the Shreveport Police Department and Blueline Solutions have shown very positive statistics in the first months of the speed enforcement camera implementation. Speeding during school zone hours has been decreased by over ninety percent in the areas in which cameras are active.

We also want to advise the citizens that the cameras are now present in twenty school zones throughout our city, and more are being added by the week. We want to remind our citizens to shown caution on the roadway. Research has shown that motor vehicle crashes are one of the leading causes of child deaths in the United States, comprising about 20% of all deaths among children in 2016.

Below is a list of all of the current active camera sites however, more are being installed at different locations weekly.
