FOR IMMEDIATE RELEASE:

12-16-2022

---

**Law Enforcement set for 2022 Radiance Technologies Independence Bowl kickoff**

The Shreveport Police Department has partnered with the Caddo Parish Sheriff's Office, Bossier City Police Department, Louisiana State Police, Shreveport Fire Department, Barksdale Air Force Base, Federal agencies, D&L Security, Sentinel Security and others to provide a safe and secure environment for this year's matchup between the Louisiana Ragin' Cajuns and the University of Houston Cougars.

We would like to take the opportunity to offer some general safety tips to those coming out for the game:

- If you are parking on site or at one of the two shuttle bus locations remember to leave all valuables at home and lock your car doors. Put any items of value in the trunk or elsewhere out of sight
- Be aware of your surroundings at all times both inside and outside of the stadium and report any suspicious activity to a police officer, there will be one nearby
- Do not leave small children unattended
- Bowl games can be intense but please be courteous to those around you and avoid foul language and other offensive behaviors
- Treat others as you would want to be treated
- Have fun and enjoy your time in Shreveport!
