**Police continue investigation into major hit and run**

Crash Investigators continue their search for a vehicle responsible for seriously injuring two people early Thursday Morning.

On December 29, at 12:30 a.m. Shreveport Police patrol officers responded to reports of a major hit and run at the intersection of Linwood Avenue and Camille Street. Arriving officers located a man and a woman lying in the roadway, suffering from what appeared to be life-threatening injuries. They were transported to a local hospital by the Shreveport Fire Department. The woman's condition was upgraded to non-life threatening and the man's condition is still considered life-threatening.

Due to the severity of the crash, the Crash Investigations Unit was notified and launched their investigation. They have identified the hit-and-run vehicle as a burgundy Chevrolet or GMC SUV that will have front-end damage due to the impact with the bicycle the two were traveling on. It may also be missing a fog light.

Detectives are asking that all area auto collision repair shops and citizens be on the lookout for a vehicle that matches the description they have released. Anyone with identifying information can call Shreveport Police Crash Investigators at 318-673-6955 or 318-673-7300 #3. Those wishing to remain anonymous can contact Shreveport-Caddo Crime Stoppers at 318-673-7373 or submit tips via their app, P3Tips. Shreveport Caddo Crime Stoppers pays cash rewards for information leading to the identification and arrest of those responsible for crimes.
