**Shreveport Police Department Hosts Training Session in Collaboration with ATF**

The Shreveport Police Department hosted a comprehensive training session on February 27, in collaboration with the Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF). The training aimed to enhance law enforcement's ability to identify and respond to regional and national trends in gun-related crimes.

Led by ATF experts, the training provided insights into emerging patterns of gun violence, equipping attending agencies with the necessary tools and knowledge to address such challenges effectively. Representatives from various law enforcement agencies across the region participated, demonstrating a unified commitment to combatting gun-related offenses and promoting public safety.

The Shreveport Police Department extends its sincere gratitude to the ATF for their invaluable contribution to this training initiative. Furthermore, special thanks are extended to the Louisiana State University Shreveport Police Department for generously offering their beautiful facilities.

The Shreveport Police Department remains steadfast in its dedication to proactive training and collaboration with federal and regional partners, reinforcing its commitment to ensuring the safety and well-being of all residents.
