**SPD SUCCESSFULLY UTILIZES ANTI-LITTERING CAMERAS
TO MAKE FIRST ARREST**

Earlier today, the Shreveport Police Department made their first arrest using the new anti-littering cameras that have been installed around the city. These cameras were installed for the purpose of making sure that bad actors who litter and illegally dump in the city will be brought to justice. Mayor Tom Arceneaux expressed his pride in this achievement, stating, "Keeping our city clean is a shared responsibility, and it starts with each of us taking pride in our community. The successful use of these cameras underscores our commitment to maintaining a clean and welcoming environment for everyone in Shreveport."

The arrest highlights the effective use of technology by the Shreveport Police Department in their ongoing efforts to keep the city safe and clean. "I commend the SPD for their innovating approach and dedication to leveraging technology for the benefit of our community," Mayor Arceneaux added.

The City of Shreveport remains dedicated to enhancing the quality of life for its residents through initiatives that promote cleanliness, safety, and community pride. This arrest serves as a reminder that littering will not be tolerated, and efforts to maintain a clean city will continue to be enforced.
