**Shreveport Police Department Announces Towing Measures for Upcoming  
Festival**

To ensure public safety during the upcoming festival, the Shreveport Police Department will implement towing measures for vehicles that block roadways, obstruct medical vehicles, or contribute to traffic gridlock due to illegal parking. This initiative is crucial to maintaining clear and accessible routes for emergency services and ensuring smooth traffic flow.

The Vehicle for Hire Office will coordinate with local tow companies to stage tow trucks at strategic locations for rapid response to parking violations. All towed vehicles from the downtown area will be relocated to a secure parking area. This arrangement not only enhances festival safety but also offers convenience for violators, allowing them to retrieve their vehicles from a nearby location without waiting until the next business day.

Please note that violators will be responsible for all towing fees. Any vehicles not retrieved by 5:00 a.m. on Monday will be transferred to the central storage facility.

We appreciate your cooperation and understanding in keeping our community safe and accessible. For more information, please contact the Shreveport Police Department.
