PRESS CONFERENCE ANNOUNCEMENT

**Shreveport Police Department's Strategic Plan Following Public Safety
Partnership**

Over the past three years, Shreveport's criminal justice partners and community stakeholders have collaborated to develop a comprehensive plan aimed at reducing violent crime—specifically gun violence, youth crime, and domestic violence. This plan utilizes intelligence-led strategies, targets violent and repeat offenders, and engages with community partnerships to address the underlying conditions contributing to violent crime in Shreveport and Caddo Parish.

We are pleased to update the public on the progress of this initiative. Please join us on September 26th at 10:00 AM at the Skybox located inside Independence Stadium. During this event, several of our city leaders will provide updates on the ongoing efforts and advancements in this critical cause.

We invite our media partners to attend and be part of this important discussion.
