**Emergency Water Main Work Near West Shreveport Library**

The City of Shreveport's Department of Water and Sewerage will begin emergency repairs at the West Shreveport Branch of Shreve Memorial Library (4380 Pines Road). Field Operations is replacing a valve at the library, isolating the 16-inch water main and temporarily shutting off the water.

Work is scheduled to begin tonight at 10:00 PM and is expected to be completed by early Monday morning. All repairs will take place within the Western Pressure Zone.

Residents and businesses in the area may experience temporary water service interruptions or reduced water pressure while crews complete the repairs. The Department of Water and Sewerage appreciates the community's patience as we work to restore full service as quickly and safely as possible.

If you experience water issues or have questions, you can call 318-673-7600. Customers can also stay up-to-date on developments from the Department of Water and Sewerage by visiting our website: <http://www.shreveportlawater.gov/>.
