PRESS RELEASE

March 12, 2015

City orders mandatory evacuation for Normandy Village

The City of Shreveport ordered a mandatory evacuation Thursday evening for some residents of Normandy Village.

Flooding near the complex threatened nine units during the rain storm. City officials partnered with the Red Cross to secure hotel stays for nine families, totaling 12 people.

City crews spent Thursday monitoring the situation and decided to evacuate residents as rains continued.

“Although there was no immediate danger, we felt that this evacuation was a precautionary measure should more rain come in tonight as predicted,” said Mayor Ollie Tyler
