PRESS RELEASE

October 30, 2015

Sportran seeking public input

Sportran wants to hear from citizens. An electronic survey is available at www.sportran.org for passengers to give their input on a recent study of bus routes.

AECOM, formally known as URS Corporation, completed a study of current and other potential routes. From the study, Sportran will finalize its Transit Development Plan. The community can view the proposed layout from the study and images of the Transfer Hub at Cedar Grove Park at www.sportran.org under the News and Announcements section.

Click the SporTran's Fall 2016 Proposed Transit System Survey link to give feedback. The survey will close on Nov. 25.

For more information, please call 673-7400.
