PRESS RELEASE

March 29, 2017

City to Hold Meeting on Bike Paths

The City will hold its second community meeting next week to discuss the location of pilot bike paths. The meeting will be held at **5:30 p.m. on Wednesday, April 5, at Centenary College's Whited Room.**

A new initiative for 2017 will be the creation of bike paths. The 2030 Great Expectations Master Plan identified a need for bike paths in the city. The streets proposed for the pilot plan were already identified for asphalt overlay improvements this year. They also have adequate space for bike paths and require minimal effort at no additional cost.
