PRESS RELEASE

April 2, 2017

City crews work to secure public safety during storms

Severe weather has city crews out monitoring and responding to conditions throughout the city.

“Public safety is our main priority and the citizens of Shreveport can be assured that city crews are currently focusing all efforts on monitoring these ongoing events,” said Mayor Ollie Tyler. “We are committed to act swiftly and appropriately to secure the safety of our citizens.”

Citizens are urged to take the necessary safety precautions, and in the case of an emergency, to call **911**. For non-emergencies, residents should call **675-2151** to report any other weather related issues.
